Directions: Answer the following question(s).

- 18 Pakistani students held a rally against the Facebook page called “Everybody Draw Mohammed Day!”. A Pakistani court ordered the government to block the popular social networking site because the page encouraged users to submit images of Islam’s Prophet Mohammed. Because the Islamic religion prohibits the depiction of Mohammed, protests occurred in Pakistan and other Muslim countries.

Based on this scenario, explain how technology can positively or negatively affect a community. Use evidence from the text to support your answer.
